

TAC-200 Diver Swim Board

- ◆ **Smaller & lighter than TAC-100**
- ◆ **Easy to navigate**
- ◆ **Large dial on compass**
- ◆ **Luminous technology**

TAC-200A

Developed for professional dive teams, the **TAC-200** Diver Swim Board is smaller and lighter than the original TAC-100 Diver Navigation Board. The TAC-200 is accurate and easy to navigate using an easy to follow

underwater compass. The larger compass dial makes navigating easy even in the poorest visibility. The latest in luminous technology allows divers to operate in the dark for 6-8 hours.
